

Cisco Any Connect VPN Setup Windows 8.1

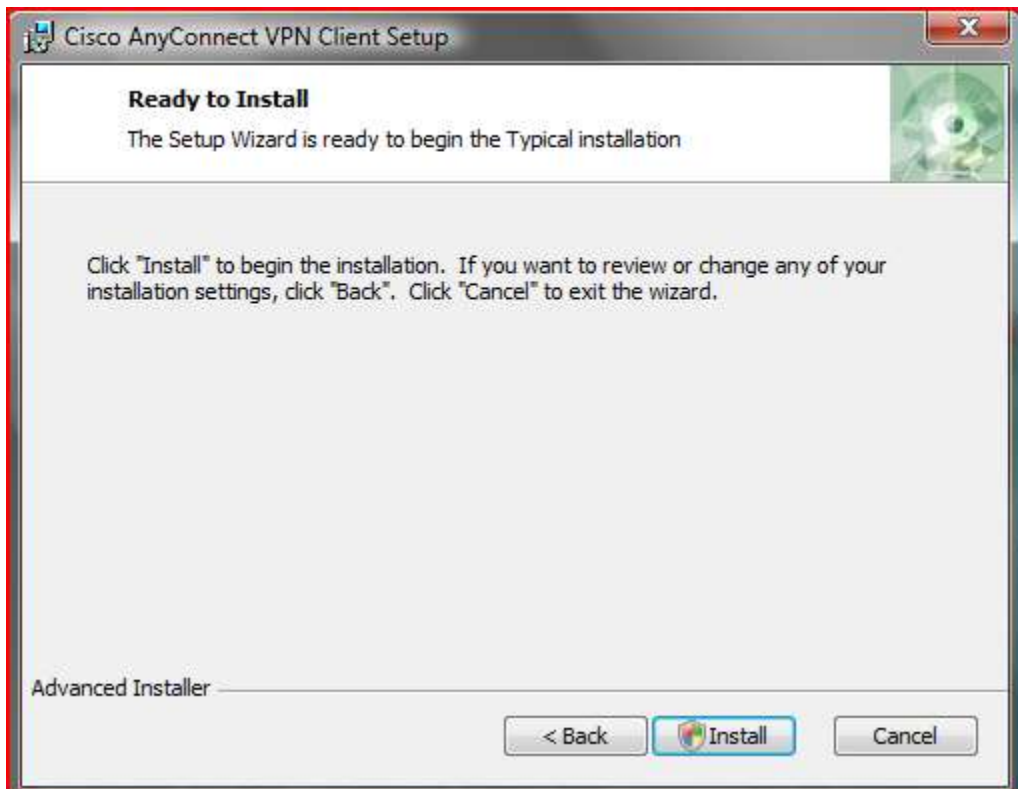

1. Open the Cisco VPN Client file: AnyConnect-win8.msi

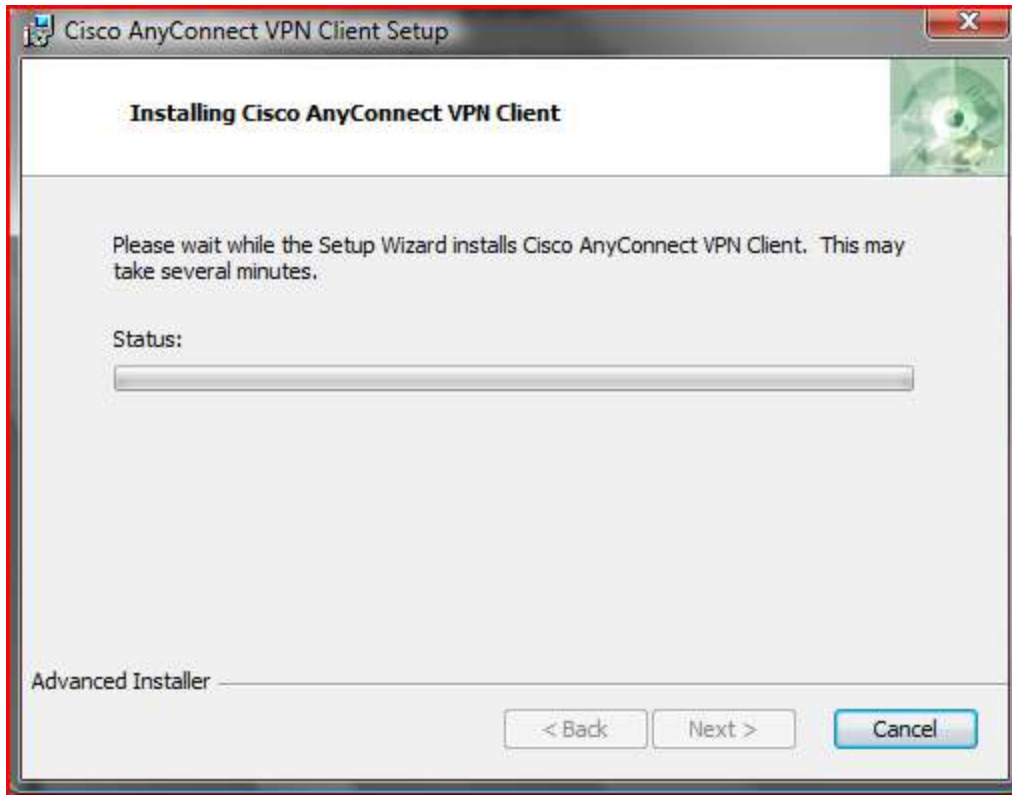

2. Click Next

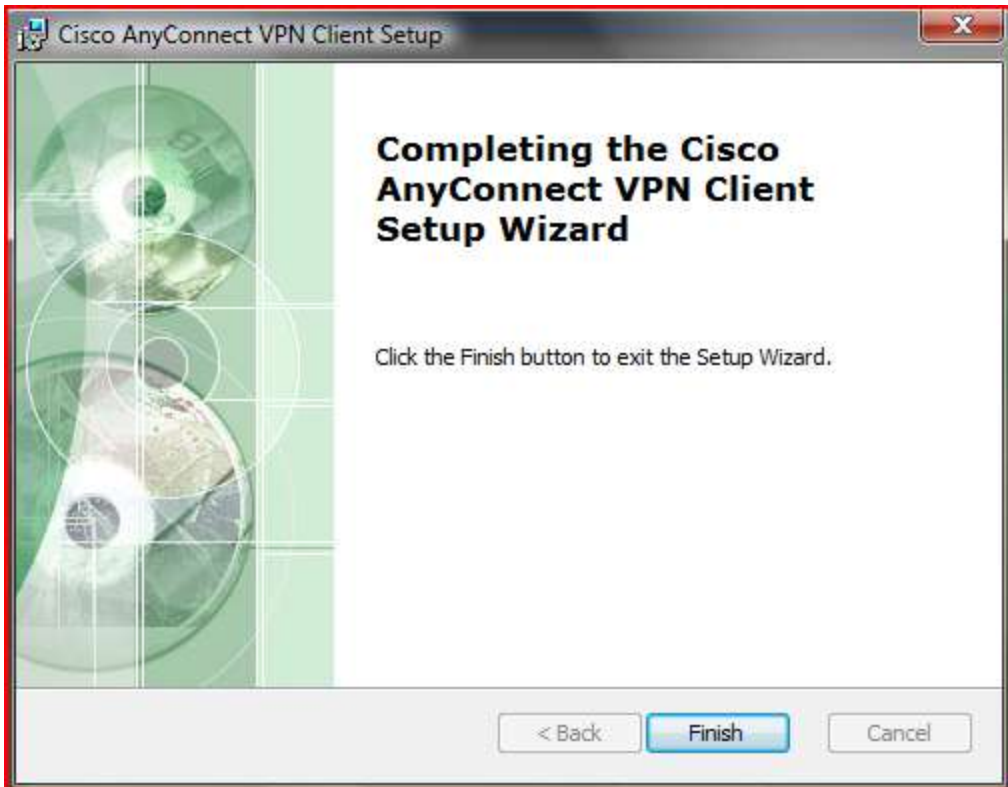

3. Accept the End-User License Agreement and click Next

4. Click Install

- 5.
 - 6.
 - 7.
- The Status windows will appear.
- When prompted by the UAC click Allow.
- The Installer will install the Cisco Any Connect Client

8. Click Finish.
9. You will now have the program Cisco AnyConnect VPN Client installed. Click Start > then type "Cisco" > click "Cisco AnyConnect Secure Mobility ClientVPN Client"
10. When opening the Cisco AnyConnect Secure Mobility ClientVPN Client you will see a window that shows VPN: Ready to connect, in the box, enter: "dragon.uchastings.edu" Click Connect
11. You will see a red window popup warning you about "Untrusted VPN Server Blocked!" Click "Change Setting..." Uncheck "Block connections to untrusted servers" then close the window.
12. Click Connect.
13. Click Connect Anyway
14. In Group: select "Hastings-VPN" then enter your UC Hastings email address and password. Click Continue Anyway when prompted. You will see a small circle icon with a yellow lock on top of it.
15. To disconnect, right click on the icon and select VPN Disconnect.
