

Create Outstanding Professionals Ready to Solve 21st Century Problems

1. Integrate elements of comparative law, experiential practice, problem-solving exercises, basic non-legal knowledge, and ethics throughout the curriculum.
2. Reduce class size to enhance the educational experience.
3. Support innovative and effective classroom teaching.
4. Develop a first-year lawyering /legal profession course to introduce all students to a broad set of lawyering skills and ethical values.
5. Ensure rich experiential learning and clinical opportunities for students interested in all realms of practice.
6. Improve the writing skills of students.
7. Increase opportunities for student collaboration in research, writing and practice.
8. Provide effective academic support to students in law school and in preparation for the bar.
9. Develop a comprehensive student/faculty advising program.
10. Partner with students to help them identify and secure rewarding jobs.
