Subject: You're invited to "UC Hastings Today," a series that starts this Friday at noon

Dear all,

Please join us to kick off a new series, ***UC Hastings Today***, on Friday, April 20, from noon to 1 p.m. in the Alumni Reception Center (ARC).

UC Hastings Today is a series of community get-togethers led by faculty, staff, and outside experts on various topics related to our mission, operations, and governance.

This Friday's inaugural session (a bring-your-own lunch event) will feature CFO David Seward and Assistant Dean for Admissions Greg Canada presenting an overview of the College's operations and financial status. The overview is based on UC Hastings' recent presentation to Moody's Investor Services during Moody's periodic review of the College's debt ratings.

Future subjects are expected to include technology, development, long-range campus planning, trends in legal education, and strategic planning updates.

We hope to see you there!

Organized by the Strategic Planning Implementation Committee on Financial Sustainability
Co-Chairs, David Seward and Beth Hillman
