**Writing Competitions**

Detailed information on the following announcements is available at the Law Library Circulation Desk.

**Pacific Legal Foundation's Program for Judicial Awareness 8th Annual Student Writing Competition.** The Program will award up to three cash prizes for publishable essays that address one of the following topics:

- 1) The Supreme Court found in *Grutter v. Bollinger* that achieving racial diversity in law school classrooms is a compelling state interest sufficient to overcome the Equal Protection Clause's ban on treating individuals differently because of their race. This term, the Court will determine whether the same rationale applies to race-based school assignments in K-12 public education. How should the Court rule on this issue, and why?
- 2) Evaluate this statement: "Constitutional protection of private property rights is not absolute. When the rights of property owners come into conflict with fundamental environmental values, private rights must yield to the common good."
- 3) The Clean Water Act gives the federal government authority to regulate or prohibit activity that could pollute the "navigable waters" of the United States. It is universally agreed that the Act also authorizes federal regulation of wetlands, but the extent of that authority is not well defined. In

*Rapanos v. United States*, Justice Scalia's plurality opinion held that federal regulatory jurisdiction exists only over wetlands that are adjacent to (i.e. abut) "a relatively permanent body of water connected to traditional interstate navigable waters," and where the wetland has a continuous surface connection with the adjacent water body such that two are "indistinguishable." In his concurring opinion, Justice Kennedy advanced a different test: that federal jurisdiction extends to any wetlands that "significantly affect the chemical, physical, and biological integrity" of navigable-in-fact waters.

Which of these competing standards should lower courts apply in cases dealing with federal regulation of wetlands under the CWA?

Prizes: First - \$5,000; 1<sup>st</sup> Runner Up - \$3,000 and 2<sup>nd</sup> Runner Up - \$1,500.

**Deadline: Must be postmarked by no later than May 31, 2007.**

**American College of Trial Lawyers' Essay Contest.** Prizes: First - \$10,000 and Second - \$5,000.

## CAREER TIPS

### Sartorial Splendor! or First Impressions are Lasting

By Sarah Tigerman

Great! Your applications materials were successful and you have an interview scheduled. You know you have to research the employer and prepare for interview questions, but what about your attire? How you look as you enter the interview room will have as much impact on the first impression you make as your winning smile, great eye contact, and firm handshake. You want your appearance to tell the interviewer that you are professional, responsible and attend to details. How do you do that, you wonder? Easy, just follow these simple guidelines and your first impression will be a great one.

#### For Everyone:

- Wear a classic suit in a conservative color – e.g., black, blue, grey. Even if you know the employer has a casual office environment and the attorneys never wear suits, that doesn't mean you can dress casually for the interview. Anyone can dress down; the employer needs to see that you can dress professionally when appropriate.
- Be well-groomed – have neat and clean hair and nails - without exception!
- Avoid strong cologne or perfume.
- Keep jewelry conservative and minimal .

- Be well-heeled - make sure your shoes are in good shape and polished.

#### For Women:

- Wear a conservative blouse with your classic suit. Avoid plunging necklines. This is not the time to be sexy or make a fashion statement.
- Can you wear pants? It depends. If you are interviewing with a very conservative east coast law firm, they might prefer a skirt. In the progressive Bay Area, pantsuits are quite common on women attorneys. Consider the particular employer.
- Wear a conservative hairstyle.
- Wear nylons under skirts and select appropriate footwear – no open toes or stilettos.
- Keep makeup understated and, if wearing nail polish, select a light color.

#### For Men:

- Select a dress shirt in a light color (white is *always* good), and make sure it is well pressed.
- Avoid too many patterns. For example, if your suit is pinstriped, wear a solid shirt.
- Wear a tie and keep the top button of your shirt buttoned.
- Wear a belt (that matches your dark leather shoes).
- Have any facial hair neatly trimmed (or be clean-shaven).
- Jacket tips: don't button the bottom button; unbutton your jacket before sitting down.

Because there is never a second chance to make a first impression, impress your employer right from

the start with your excellent judgment and professional appearance! And, as always, if you have any questions about your interview attire come in and see a Career Counselor.
